

CAPITAL COLLECTION SERVICES (CCS) - A NEW SERVICE

CCS is a Queensland-based licensed mercantile and insurance investigator with a focus on travel and health insurance claims for overseas and Medicare Ineligible patients.

Our services are mainly directed to Public and Private Hospitals in Queensland. From Patient liaison by visiting the patient, to undertaking relevant financial consent, gathering insurance details, and assisting with the claims process to maximize revenue for our clients.

Our focus is to have hospital and medical fees financially underwritten to ensure hospital costs are covered.

As mercantile agents, we offer the complete range of debt recovery to further enhance a hospital's revenue base. In some cases, we can offer financing of debt by way of a credit limit or term loan. Our referral partners have many years of experience in this area.

What's more, our fees are competitive, and you only pay on results.
